An Act to make provision with respect to the Exploration for and the Exploitation of the Petroleum Resources, and certain other Resources, of certain Submerged Lands adjacent to the Coasts of Victoria, to amend the Petroleum Act 1958 and the Acts Interpretation Act 1958 and for other purposes.

Preamble

WHEREAS in accordance with international law Australia as a coastal State has sovereign rights over the Continental Shelf beyond the limits of Australian territorial waters for the purpose of exploring it and exploiting its natural resources:

And whereas Australia is a party to the Convention on the Continental Shelf signed at Geneva on 29 April 1958 in which those rights are defined:

And whereas by the Seas and Submerged Lands Act 1973 of the Commonwealth it is declared and enacted that the sovereignty in respect of the territorial sea of Australia and in respect of the airspace over it and in respect of its sea-bed and subsoil, and the sovereignty in respect of certain internal waters of Australia and in respect of the airspace over those waters and in respect of the sea-bed and subsoil beneath those waters, is vested in and exercisable by the Crown in right of the Commonwealth:

And whereas the Parliaments of the States and the Legislative Assembly of the Northern Territory have certain legislative powers in respect of the sea-bed and subsoil referred to in the last preceding recital and the Parliament of the Commonwealth has vested in the Crown in right of each of the States and the Crown in right of the Northern Territory certain proprietary rights in respect of that sea-bed and subsoil:
And whereas it has been agreed between the Commonwealth, the States and the Northern Territory that, in place of the scheme provided for by an Agreement between the Commonwealth and the States dated 16 October 1967—

(a) legislation of the Parliament of the Commonwealth in respect of the exploration for and the exploitation of the petroleum resources of submerged lands should be limited to the resources of lands beneath waters that are beyond the outer limits of the territorial sea adjacent to the States and the Northern Territory (being outer limits based, unless and until otherwise agreed, on the breadth of that sea being 3 nautical miles), and that the States and the Northern Territory should share in the administration of that legislation;

(b) legislation of the Parliament of each State should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the State as is on the landward side of the waters referred to in paragraph (a);

(c) legislation of the Legislative Assembly of the Northern Territory should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the Northern Territory as is on the landward side of the waters referred to in paragraph (a); and

(d) the Commonwealth, the States and the Northern Territory should endeavour to maintain, as far as practicable, common principles, rules and practices in the regulation and control of the exploration for and the exploitation of the petroleum resources of all the submerged lands referred to above that are on the seaward side of the inner limits of the territorial sea of Australia.

BE IT THEREFORE ENACTED by the Queen's Most Excellent Majesty by and with the advice and consent of the Legislative Council and the Legislative Assembly of Victoria
in the present Parliament assembled and by the authority of the same as follows (that is to say):

(b) being the holder of a licence referred to in paragraph (a), may, from time to time within that period, make an application to the Minister for the variation of that licence to include in the licence area a number of those blocks that does not exceed the number, if any, by which his primary entitlement exceeds the number of blocks in respect of which that licence was granted and the number of blocks, if any, included in that licence by reason of any previous variations of that licence.

(3) Where—

(a) a permittee makes an application under subsection (1) in respect of his primary entitlement; or

(b) a permittee who is the holder of a licence in respect of a number of blocks that is less than his primary entitlement makes an application under sub-section (2) for a variation of that licence, and the number of blocks in respect of which that licence was granted, together with the number of blocks included, and sought to be included, in the licence area by reason of applications under that sub-section, is his primary entitlement—

(4) Subject to sub-section (5), the application period in respect of an application under this section by a permittee is—

(9) If a licensee on whom there has been served an instrument under sub-section (1) or (2) has made a request under sub-section (8) within the period referred to in sub-section (8), the Minister must grant the renewal of the licence to the licensee.

(10) If a licensee on whom there has been served an instrument under sub-section (1) or (2) has not made a request under sub-section (8) within the period referred to in sub-section (8), the application lapses upon the expiration of that period.

(6) Where a person is the licensee in respect of two or more licence areas in each of which there is part of a particular petroleum pool, the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(7) Where an agreement under this section is in force or the Minister has given directions under sub-section (5) or (6), the Minister may, having regard to additional information that has become available, by instrument in writing served on the licensee or licensees concerned, give to the

(10) In this section, "dealing" means a dealing to which section 81 applies.

(6) If a pipeline licensee on whom there has been served an instrument under sub-section (1) has made a request under sub-section (5) within the period referred to in sub-section (5), the Minister must grant to the licensee the renewal of the pipeline licence.
(7) If a pipeline licensee on whom there has been served an instrument under sub-section (1) has not made a request under sub-section (5) within the period referred to in sub-section (5), the application lapses upon the expiration of that period.

(a) in the case of the first year of the term of the permit, licence or pipeline licence—the day on which that term commenced; and

(b) in the case of a year of the term of the permit, licence or pipeline licence other than the first—the anniversary of that day.

143. **Royalty**

1. A permittee, lessee or licensee shall, subject to this Division, pay to the Minister royalty at the prescribed rate in respect of all petroleum recovered by the permittee, lessee or licensee in the permit area, lease area or licence area.

2. Subject to the succeeding provisions of this section and the provisions of section 144, the prescribed rate in respect of petroleum recovered under a permit, lease or licence is ten per centum of the value at the well-head of the petroleum.

3. The prescribed rate in respect of petroleum recovered under a secondary licence is the percentage determined by the Minister in pursuance of section 42(1) in respect of petroleum so recovered.

4. Where a secondary licence is granted to the holder of a primary licence, the prescribed rate in respect of petroleum recovered under the primary licence is, as from the commencement of the next royalty
period after the day from which the secondary licence has effect, the same percentage as is applicable in respect of petroleum recovered under the secondary licence.

(5) Where—

(a) a licence is granted on an application under section 47; and

(b) the instrument served on the applicant under section 49 contains a statement that the applicant will be required to pay, in respect of petroleum recovered under that licence, royalty at the rate specified in that statement—

the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.

(6) Where a licence is granted on an application under section 51(1), the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by that sub-section.

(7) The prescribed rate in respect of petroleum recovered in the licence area referred to in a licence granted by way of renewal of a licence is the percentage that would be the prescribed rate if the licence so granted were the continuation in force of the previous licence.

(8) A reference in this section or in a permit, lease or licence to royalty at the prescribed rate or royalty at the rate that is for the time being the prescribed rate shall be read as a reference to royalty at the rate that is or was the prescribed rate applicable in accordance with the provisions of this Act as in force from time to time.
144. Reduction of royalty in certain cases

(1) Where the Minister is satisfied that the rate of recovery of petroleum from a well has become so reduced that, having regard to the rate or rates of royalty applicable under section 143, further recovery of petroleum from that well would be uneconomic, the Minister may, by instrument in writing, determine that the royalty in respect of all or any of the petroleum recovered from that well on or after a date specified in the determination shall be at such rate (being a rate lower than the rate that would be applicable under section 143) as the Minister specifies.

(2) The prescribed rate in respect of petroleum to which a determination under sub-section (1) is applicable is the rate specified in the determination.

(3) The Minister may, by instrument in writing, revoke or vary a determination under sub-section (1) and the revocation or variation applies to petroleum recovered on or after such date as is specified in the instrument.

145. Royalty not payable in certain cases

(1) Royalty under this Act—

(a) is not payable in respect of petroleum that the Minister is satisfied was unavoidably lost before the quantity of that petroleum was ascertained;

(b) is not payable in respect of petroleum that is used by the permittee, lessee or licensee, as approved by the Minister, for the purposes of petroleum exploration operations or operations for the recovery of petroleum; and

(c) is not payable in respect of petroleum that, with the approval of the Minister, is flared or
vented in connexion with operations for the recovery of petroleum.

(2) Where petroleum that has been recovered by a permittee, lessee or licensee is, with the approval of the Minister, returned to a natural reservoir, royalty under this Act is not payable in respect of that petroleum by reason of that recovery but this sub-section does not affect the liability of that or any other permittee, lessee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

146. **Ascertainment of well-head**

For the purposes of this Act, the well-head, in relation to any petroleum, is such valve station as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such valve station as is determined by the Minister as being that well-head.

147. **Ascertainment of value**

For the purposes of this Act, the value at the well-head of any petroleum is such amount as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such amount as is determined by the Minister as being that value.

148. **Ascertainment of quantity of petroleum recovered**

For the purposes of this Act, the quantity of petroleum recovered by a permittee, lessee or licensee from a well during a period shall be taken to be—

(a) the quantity measured during that period by a measuring device approved by the Minister and installed at the well-head or at such other place as the Minister approves; or
(b) where no such measuring device is so installed, or the Minister is not satisfied that the quantity of petroleum recovered by the permittee, lessee or licensee from that well has been properly or accurately measured by such a measuring device—the quantity determined by the Minister as being the quantity recovered by the permittee, lessee or licensee from that well during that period.

149. Payment of royalty

Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

150. Penalty for late payment

(1) Where a fee or an amount of royalty under this Act is not paid under this Division at or before the time when the fee or the amount of royalty is payable there is payable to the Minister by the permittee, lessee, licensee or pipeline licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of the fee or royalty from time to time remaining unpaid to be computed from the time when the amount became payable until it is paid.

(2) An additional amount in respect of royalty is not payable under sub-section (1) in respect of any period before the expiration of seven days after the value of the petroleum was agreed or determined under section 147.
151. Fees and penalties debts due to the State

A fee royalty or other amount payable under this division is a debt due by the permittee, lessee, licensee or pipeline licensee to the State and is recoverable in a court of competent jurisdiction.

   (b) For the definition of "Adjacent area" in section 3(1) there is substituted the following definition:

       "Adjacent area" means the adjacent area within the meaning of the Petroleum (Submerged Lands) Act 1982.'.

2. The Petroleum (Submerged Lands) Act 1967 is repealed.
SECOND SCHEDULE

CONVENTION ON THE CONTINENTAL SHELF

The States Parties to this Convention have agreed as follows:

ARTICLE 1

For the purpose of these articles, the term "continental shelf" is used as referring (a) to the sea-bed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas; (b) to the sea-bed and subsoil of similar submarine areas adjacent to the coasts of islands.

ARTICLE 2

1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.

2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.

3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.

4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the sea-bed and subsoil together with living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the sea-bed or are unable to move except in constant physical contact with the sea-bed or the subsoil.

ARTICLE 3

The rights of the coastal State over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.
ARTICLE 4

Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

ARTICLE 5

1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.

2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.

3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point of their outer edge. Ships of all nationalities must respect these safety zones.

4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.

5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.

6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.

7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.

8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely
scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

ARTICLE 6

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

ARTICLE 7

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

ARTICLE 8

This Convention shall, until 31st October, 1958, be open for signature by all States Members of the United Nations or of any of the specialized agencies, and by any other State invited by the General Assembly of the United Nations to become a party to the Convention.

ARTICLE 9
This Convention is subject to ratification. The instruments of ratification shall be deposited with the Secretary-General of the United Nations.

ARTICLE 10

This Convention shall be open for accession by any States belonging to any of the categories mentioned in article 8. The instruments of accession shall be deposited with the Secretary-General of the United Nations.

ARTICLE 11

1. This Convention shall come into force on the thirtieth day following the date of deposit of the twenty-second instrument of ratification or accession with the Secretary-General of the United Nations.

2. For each State ratifying or acceding to the Convention after the deposit of the twenty-second instrument of ratification or accession, the Convention shall enter into force on the thirtieth day after deposit by such State of its instrument of ratification or accession.

ARTICLE 12

1. At the time of signature, ratification or accession, any State may make reservations to articles of the Convention other than to articles 1 to 3 inclusive.

2. Any Contracting State making a reservation in accordance with the preceding paragraph may at any time withdraw the reservation by a communication to that effect addressed to the Secretary-General of the United Nations.

ARTICLE 13

1. After the expiration of a period of five years from the date on which this Convention shall enter into force, a request for the revision of this Convention may be made at any time by any Contracting Party by means of a notification in writing addressed to the Secretary-General of the United Nations.

2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such request.

ARTICLE 14
Petroleum (Submerged Lands) Act 1982
Act No. 9772/1982

The Secretary-General of the United Nations shall inform all States Members of the United Nations and the other States referred to in article 8—
(a) of signatures to this Convention and of the deposit of instruments of ratification or accession, in accordance with articles 8, 9 and 10;
(b) of the date on which this Convention will come into force, in accordance with article 11;
(c) of requests for revision in accordance with article 13;
(d) of reservations to this Convention, in accordance with article 12.
