(1) The person responsible for a patient may consent to the carrying out of any medical or dental treatment.

S. 42H inserted by No. 40/1999 s. 14.

Note

However, section 42HA affects whether the person responsible may consent to the carrying out of medical or dental treatment in certain circumstances.

(2) In determining whether or not to consent to medical or dental treatment, the person responsible must act in the best interests of the patient.

S. 42HA inserted by No. 41/2002 s. 19.

(1) This section applies despite anything else in this Part but does not apply to emergency treatment under section 42A.

(2) If a patient is likely to be capable, within a reasonable time, of giving consent to the carrying out of medical or dental treatment, the person responsible for the patient can only consent to the carrying out of the treatment, and a registered practitioner can only carry out that treatment, if—

-
- (a) the registered practitioner reasonably believes, and states in writing in the patient's clinical records, that a further delay in carrying out the treatment would result in a significant deterioration of the patient's condition; and
- (b) neither the registered practitioner nor the person responsible has any reason to believe that the carrying out of the treatment would be against the patient's wishes.
- (3) If the registered practitioner or person responsible has reason to believe that the carrying out of the treatment would be against the patient's wishes, the practitioner or person responsible may apply to the Tribunal for its consent to the carrying out of the treatment.

- (b) start hearing the application within 14 days after the day on which the Tribunal received it.
- (5) The patient is a party to the proceeding on the application.

-
- (6) On hearing the application, the Tribunal may consent to the carrying out of the medical or dental treatment, and a registered practitioner may carry out that treatment, if the Tribunal is satisfied that—
- (a) the patient is incapable of giving consent; and
 - (b) a further delay in carrying out the treatment would result in a significant deterioration of the patient's condition; and
 - (c) the treatment would be in the patient's best interests, having regard to the evidence (if any) of the patient's views about such treatment.

42P Introduction and outline of Division

- (1) This Division contains provisions for the carrying out of a medical research procedure on a patient.

-
- (2) In essence, this Division provides a 4 step process for authorising the carrying out of a medical research procedure on a patient, as follows—
- (a) step 1 is to determine whether the relevant research project is approved by the relevant human research ethics committee—see section 42Q;
 - (b) step 2 is to determine whether the patient is likely to recover the capacity to consent to the procedure within a reasonable time—see section 42R;
 - (c) step 3 is to seek the consent of the person responsible for the patient, which only applies where allowed by section 42R—see section 42S;
 - (d) step 4 is procedural authorisation, which only applies where allowed by section 42R and the person responsible cannot be ascertained or contacted—see section 42T.
- (3) Steps 2, 3 and 4 referred to in subsection (2) do not apply to the carrying out of a medical research procedure under section 42A.

Note

Section 42A provides for the carrying out of a medical research procedure without consent in emergency situations.

- (4) This Division also provides that—
- (a) the Tribunal has jurisdiction in various circumstances—see sections 42V, 42W and 42X;
 - (b) offences may be committed by registered practitioners who fail to comply with the Division—see section 42Y;
 - (c) registered practitioners who comply with the Division are protected from civil and criminal liability—see section 42Z.

- (5) This Division is subject to section 41, which prohibits the carrying out of medical treatment if a refusal of that treatment is in force under the **Medical Treatment Act 1988**.

42Q Step 1—Approval of relevant research project

S. 42Q
inserted by
No. 3/2006
s. 9.

- (1) Step 1 is to determine whether the relevant research project has been approved by the relevant human research ethics committee.
- (2) A medical research procedure must not be carried out on a patient if the relevant research project has not been approved by the relevant human research ethics committee.
- (3) A medical research procedure must be carried out in accordance with the relevant human research ethics committee approval, including any conditions of that approval.

42R Step 2—Is patient likely to recover within a reasonable time?

S. 42R
inserted by
No. 3/2006
s. 9.

- (1) Step 2 is to determine whether the patient is likely to be capable, within a reasonable time, of giving consent to the carrying out of a medical research procedure.
- (2) The reasonable time is the time by which, given the nature of the relevant research project, the procedure would need to be performed on the patient, having regard to—
- (a) the medical or physical condition of the patient; or
 - (b) the stage of treatment or care; or
 - (c) other circumstances specific to the patient.
- (3) If a patient is likely to be capable, within a reasonable time as determined in accordance with subsection (2), of giving consent to the carrying out of a medical research procedure, a registered

practitioner must not carry out, or supervise the carrying out of, the procedure under the authority of a consent under section 42S or procedural authorisation under section 42T.

- (4) If a patient is not likely to be capable, within a reasonable time as determined in accordance with subsection (2), of giving consent to the carrying out of a medical research procedure, a registered practitioner may carry out, or supervise the carrying out of, the procedure under the authority of a consent under section 42S or procedural authorisation under section 42T.
- (5) Before, or as soon as practicable after, carrying out, or supervising the carrying out of, the medical research procedure, the registered practitioner must state his or her belief that, at the time of the procedure, the patient is or was not likely to be capable of giving consent within a reasonable time and the reason for that belief in writing in the patient's clinical records.

Note

This section does not apply to a medical research procedure under section 42A—see section 42P(3).

S. 42S
inserted by
No. 3/2006
s. 9.

42S Step 3—Consent of person responsible

- (1) Step 3 is to seek the consent of the person responsible for the patient to the carrying out of the medical research procedure on the patient.

Note

This section does not apply to a medical research procedure under section 42A—see section 42P(3).

- (2) The person responsible may consent to the carrying out of a medical research procedure on the patient.

- (3) The person responsible may only consent to the carrying out of the procedure if he or she believes that the carrying out of the procedure would not be contrary to the best interests of the patient.
- (4) The consent must be consistent with the requirements for consent, if any, specified in the relevant human research ethics committee approval for the relevant research project or the conditions of that approval.

42T Step 4—Procedural authorisation

S. 42T
inserted by
No. 3/2006
s. 9.

- (1) Step 4 is procedural authorisation for the carrying out of the medical research procedure on the patient, which applies only if the person responsible for the patient cannot be ascertained or contacted.

Note

This section does not apply to a medical research procedure under section 42A—see section 42P(3).

- (2) A registered practitioner may carry out, or supervise the carrying out of, a medical research procedure on a patient without the consent under section 42S of the person responsible for the patient if—
 - (a) the patient is not likely to be capable, within a reasonable time as determined in accordance with section 42R(2), of giving consent to the carrying out of the procedure; and
 - (b) steps that are reasonable in the circumstances have been taken—
 - (i) to ascertain whether there is a person responsible and, if so, who that person is; and

-
- (ii) if the person responsible is ascertained, to contact that person to seek his or her consent to the proposed procedure under section 42S—
- but it has not been possible to ascertain whether there is a person responsible or who that person is or to contact that person; and
- (c) the practitioner believes on reasonable grounds that inclusion of the patient in the relevant research project, and being the subject of the proposed procedure, would not be contrary to the best interests of the patient; and
- (d) the practitioner does not have any reason to believe that the carrying out of the procedure would be against the patient's wishes; and
- (e) the practitioner believes on reasonable grounds that the relevant human research ethics committee has approved the relevant research project in the knowledge that a patient may participate in the project without the prior consent of the patient or the person responsible; and
- (f) the practitioner believes on reasonable grounds that—
- (i) one of the purposes of the relevant research project is to assess the effectiveness of the therapy being researched; and
- (ii) the medical research procedure poses no more of a risk to the patient than the risk that is inherent in the patient's condition and alternative treatment; and
- (g) the practitioner believes on reasonable grounds that the relevant research project is based on valid scientific hypotheses that

-
- support a reasonable possibility of benefit for the patient as compared with standard treatment.
- (3) Before, or as soon as practicable after, the medical research procedure is carried out, the practitioner supervising the carrying out of the procedure (or, if there is no such person, the practitioner carrying out the procedure) must sign a certificate—
- (a) certifying as to each of the matters set out in subsection (2); and
 - (b) stating that the person responsible (if any) or the patient (if the patient gains or regains capacity) will be informed as required by subsection (4).
- (4) A registered practitioner involved in the relevant research project must inform the person responsible (if any) or the patient (if the patient gains or regains capacity) as soon as reasonably practicable of—
- (a) the patient's inclusion in the relevant research project; and
 - (b) the option to refuse consent for the procedure to be continued and withdraw the patient from future participation in the project without compromising the patient's ability to receive any available alternative treatment or care.
- (5) The registered practitioner supervising the carrying out of the procedure (or, if there is no such person, the registered practitioner carrying out the procedure) must—
- (a) forward a copy of the certificate referred to in subsection (3) to the Public Advocate and the relevant human research ethics committee as soon as practicable (and in any

-
- event within 2 working days) after supervising the carrying out of, or carrying out, the procedure; and
- (b) ensure that the certificate is kept in the patient's clinical records.
- (6) If—
- (a) the medical research procedure is a procedure extending over a period exceeding one month after a copy of the certificate is forwarded to the Public Advocate and the relevant human research ethics committee under subsection (5); and
- (b) the registered practitioner supervising the carrying out of the procedure (or, if there is no such person, the registered practitioner carrying out the procedure) believes on reasonable grounds that—
- (i) the requirements of subsections (2)(b) and (8) (if applicable) have been met but the person responsible has not been able to be ascertained or contacted; and
- (ii) the patient has not gained or regained the capacity to consent—
- the practitioner must, at intervals of not more than one month while the procedure continues, sign a certificate, and forward a copy to the Public Advocate and the relevant human research ethics committee, certifying that each of the matters set out in subsection (2) continue to apply.
- (7) The registered practitioner supervising the carrying out of the procedure (or, if there is no such person, the registered practitioner carrying out the procedure) must ensure that each certificate under subsection (6) is kept in the patient's clinical records.

-
- (8) If a medical research procedure is being carried out on a patient under the authority of this section, steps that are reasonable in the circumstances must continue to be taken (as the case requires)—
- (a) to ascertain whether there is a person responsible and, if so, who that person is; and
 - (b) if the person responsible is ascertained, to contact that person to seek his or her consent to the proposed procedure.

Note

If the person responsible is contacted and is willing and able to make a decision (see section 37), section 42S applies. If the patient gains or regains capacity to consent, his or her consent must be sought, as he or she will no longer be a person to which this Division applies.

42U Best interests

- (1) In this Division, for the purposes of determining whether a medical research procedure would or would not be contrary to the best interests of a patient, the following matters must be taken into account—
- (a) the wishes of the patient, so far as they can be ascertained; and
 - (b) the wishes of any nearest relative or any other family members of the patient; and
 - (c) the nature and degree of any benefits, discomforts and risks for the patient in having or not having the procedure; and
 - (d) any other consequences to the patient if the procedure is or is not carried out; and
 - (e) any other prescribed matters.

- (2) For the purposes of subsection (1)(b), if the patient—

 - (b) objects to—
 - (i) a relative referred to in paragraphs (a) to (g) of the definition of *nearest relative* in section 3(1); or
 - (ii) another family member (other than the patient's spouse or domestic partner)—
being involved in decisions concerning the patient that would include a medical research procedure being carried out on the patient—

SCHEDULE 4

INSTRUMENTS RELATING TO ENDURING GUARDIAN

FORM 1

APPOINTMENT OF ENDURING GUARDIAN

1. I (insert name, address and occupation of appointor), appoint (insert name, address and occupation of proposed guardian) to be my guardian.
2. I authorise my guardian if, and only to the extent that, I subsequently become unable by reason of a disability to make reasonable judgments in respect of any matters relating to my person or circumstances, to exercise the powers of a guardian under section 24 of the **Guardianship and Administration Act 1986**, being all the powers that a parent may exercise in respect of his or her child, including—
 - to decide where I am to live, whether permanently or temporarily;
 - to decide with whom I am to live;
 - to decide whether I should or should not be permitted to work and, if so—
 - the nature or type of work; and
 - for whom I am to work; and
 - matters related thereto; and
 - to consent to any health care that is in my best interests;
 - to restrict visitors to such extent as may be necessary in my best interests and to prohibit visits by any person if my guardian reasonably believes that visits by that person would have an adverse effect on me.

*(Delete any powers you do not wish your guardian to exercise. If you do not delete any powers, you will be deemed to have authorised your guardian to exercise the full powers of a guardian under section 24 of the **Guardianship and Administration Act 1986**.)*

but subject to the following limitations:

(List any limitations you wish to place on your guardian's powers)

3. I require my guardian to take into account the following wishes in exercising, or in relation to the exercise of, the powers conferred by this appointment—

(State wishes to be taken into account)

4. (*If applicable:*) I appoint (insert name, address and occupation of proposed alternative guardian) to be my alternative guardian in place of, and with the same powers as, my guardian appointed under paragraph 1 if that person is incapable of acting as my guardian or is absent for a period.

This is an appointment of an enduring guardian made under Division 5A of Part 4 of the **Guardianship and Administration Act 1986**.

Note: An enduring guardian will be able to make decisions on your behalf on all health care and lifestyle matters you empower your enduring guardian to make. If you give your enduring guardian power to make decisions about your health care, your enduring guardian will be able to consent or withhold consent to medical or dental treatment on your behalf.

If your enduring guardian withholds consent to proposed medical or dental treatment, a practitioner may only provide the treatment if the practitioner believes on reasonable grounds that it is in your best interests to do so and if the practitioner gives your enduring guardian the opportunity to refer the matter to the Victorian Civil and Administrative Tribunal (the Tribunal) for determination.

If you wish to appoint a person who can, unless the Tribunal otherwise determines, refuse medical treatment on your behalf, you will need to appoint a person as your agent under the **Medical Treatment Act 1988**.

If you are considering appointing an agent under the **Medical Treatment Act 1988**—

Sch. 4

- you should ensure that you understand the rights and powers which an appointment under the **Medical Treatment Act 1988** confers on your agent; and
- you may wish to appoint the same person as your agent under the **Medical Treatment Act 1988** as the person you appoint as your enduring guardian, although you may choose a different person for each role; and

If you appoint or have already appointed a person as your agent under the **Medical Treatment Act 1988** and another person as your enduring guardian—

- the decision of your agent under the **Medical Treatment Act 1988** will have priority over the decision of your enduring guardian in relation to any proposed medical treatment; and
- your agent under the **Medical Treatment Act 1988** will be able to refuse to consent to medical treatment on your behalf in all circumstances regardless of any consent to the treatment that your enduring guardian may give or wish to give.
